Get an inside look into the creation of the Emmy Award®-winning animated anthology series **LOVE DEATH + ROBOTS**, created by filmmakers Tim Miller (*Deadpool*) and David Fincher (*Se7en, Mindhunter*).

This groundbreaking series united a global animation community for a celebration of bold and boundary-pushing, adult-themed, high-end animation. Its 35 short films are each painstakingly crafted with a mix of energy, action, and unapologetic humor.

Learn about the making of the show's first three volumes, including interviews with key artists and creatives, early vision decks, beautiful concept art, character studies, costume sketches, paintings, vehicle designs, and storyboards – all the way to finished frames.
